Summer Dance – 1st June – Robert Whitehead and the Danelaw Band

(please note this is now in the smaller venue so tickets are limited- apply early)

First dance of the Season – 28th September – Ian Slater

The Leicestershire & Rutland Blood Bikes support hospital teams with the movement of blood, blood products, pathology samples, patient notes, x-rays, patient scans, surgical equipment, donated breast milk – in fact anything where there is an immediate need to transport an item that will directly benefit patient care. The group follows the successful 'Blood Bike' model operated across the UK by about 30 other Blood Bike groups, most of them affiliated to The Nationwide Association of Blood Bikes (NABB).

Their group of volunteers provide a free, "out of hours" courier service to public health bodies in Leicestershire & Rutland between approximately 7pm and 6am Monday to Friday, with 24 hour cover at weekends and during public holidays. In addition they will collect donated breast milk and transport it to the Womens' Hospital in Birmingham for processing and subsequent distribution to neo-natal units.
